

Testimonials

Just to say – I think the training given by Debbie Boyse was just about the best VcV has provided so far!

Debbie was tremendous. So relevant and accessible and very interesting!!!

As I was on the child safety working group in it's development, it was so rewarding to see this had been followed up with compulsory training.

I'm well aware that many of my co-workers don't work with kids and had doubts about the relevance of this training in their work. Personally, I was so eager that everyone participated and so great to see it happen. And I think many understand now WHY it was relevant!!

Thanks for organising it!!
